

SOLIDARITY HAS NO BORDERS!

Invitation: Networkmeeting for supporters, no border kitchens, activists and individuals who support or have supported refugees along the balkan route*

13. - 14.th of february 2016 // OM10 // Göttingen

We would like to invite you supporters on the balkan route to come together, tell your stories and experiences, reflect on what happened the last months, what refugees achieved, what we were able to do, how politics reacted, what changed... At the same time we would like to use the opportunity to connect in a better way and to exchange informations.

And we invite you (maybe also through "Inputs" from activists) to think about how and what we can do in the future to keep supporting people, to overcome borders. For example: political action, no border camps/tours, mobile kitchens, safe spaces for refugees, squats, emergency phones, car-konvois, active help for refugees on their way, info-networks for activists and refugees, an international balkan-route-conference in spring, "Self-Care",

**Let's create a network of solidarity and tear down all the borders!!!
solidarity has no borders!**
